The Steering Committee then agreed that the time for action on the status of incorporation of GEMA had arrived and a program in this regard is set forth. Further, the Steering Committee felt that the time had also arrived when the Beard should make a decision on the disposition of Teturn premiums from UBLIC. Accordingly, the following information is set forth for consideration by the Beard Members for discussion at its next meeting.

a. 75% Membership Requirement for Life Insurance

The General Counsel of Ornaha stated that he was not coucerned with the 75% rule as set forth in Title 35, Section
715 of the District Code as he felt this statute was not
aimed at the type of situation emisted in GEHA. The General
Counsel further advised that if District authorities should
challenge Ornaha for issuing a contract who rein the 75%
rule was not met. Ornaha would simply, at that point,
undertake wintever action was deemed necessary by
the District authorities. As the beard members will
recall from a previous meeting, the ones of meeting
this requirement falls upon the insurance company
issuing the insurance policy rather than the group
organisation such as GEHA to whom the policy was
issued. It was the concensus of the Steering Committee

that GERA should ignore the 75% rule requirement at this time and proceed with effects to amend our charter of incorporation. If in the feture the enceune of this rule is saised by the District notherwises, the Board can, at that time, consider what action would be appropriate.

The Steering Committee felt that the Board skedd authories the Ceneral Counsel to proceed with direct regulation with the imperintendent of Corporatiess to smend our charter of incorporation. It was further felt that we might as well face this issue 'head on and efficially and formally determine the position of the District Covernment. In the event the Superintendent of Corporation will refuses to accept our preposed argendment at to then planned that we deal directly with the Corporetian Counsel. District of Columbia, and obtain an official ruling on our status, The Board will recell that the proposed amendment to our charter authorised us to carry a life incurance programa. We are also considering a complete rewording of the section Purpose of Organization" which will be stated in brand general terms and will of course authorize all forms of insuspace. At the same time such a sewowitzy will more properly put us within the definition of a charactable organization as construct under this section of the code.
